Vitamin D: Bone Up for Winter
A webinar by Adrian Gombart, Ph.D.

The “vitamin D winter” is coming! Dr. Adrian Gombart, the Linus Pauling Institute’s resident expert on vitamin D, will discuss the importance of vitamin D for healthy bones, reducing cancer, fighting infections, and the immune system.

The Linus Pauling Institute invites you to attend this free webinar covering important research on vitamin D.

Watch the presentation and join the online discussion. You can submit your questions before the event to lpi@oregonstate.edu.
